

Jeremy Egan

Senior Vice President

Education & Certification

- MBA, Stephen M. Ross School of Business at the University of Michigan
- B.S., Electrical Engineering – Northeastern University

Jeremy Egan currently serves as a Senior Vice President where he is responsible for providing financial, operational and strategic advice to companies experiencing transition, underperformance or distress. His professional experience includes strategic and operational advisory services to both public and private organizations

Prior to joining Portage Point, Jeremy was a Senior Vice President at AlixPartners in the Enterprise Improvement Practice where he developed and executed performance improvement strategies as well as growth initiatives. He has successfully delivered measured results in manufacturing, plant turnarounds, procurement and organizational effectiveness. Jeremy has also led workstreams in operational due diligences and post-acquisition assessments across a variety of functions in the aerospace & defense, industrials and energy industries. He has experience working with the leadership of small portfolio companies with ~\$30M in revenue up to large multinational companies. Recently at AlixPartners, Jeremy worked on Pacific Gas and Electric's restructuring where he helped lead supplier negotiations and successfully execute a large-scale strategic sourcing transformation

Prior to AlixPartners, Jeremy was a Senior Systems Engineer at Raytheon, owning budgets and schedules for large engineering teams. Prior to the project management roles at Raytheon, Jeremy integrated large radar systems at various military bases across the U.S. Jeremy is certified in Raytheon Six Sigma

Jeremy earned his MBA from the Stephen M. Ross School of Business at the University of Michigan. He graduated Cum Laude with a Bachelor of Science degree in Electrical Engineering from Northeastern University
